

AZURE SPECIALIST

Drive ambition with Azure by partnering with a specialist who can help you on your way to business growth and cloud success

SUPPORTING YOUR AZURE JOURNEY

With both the world and the workplace constantly changing and evolving to meet the needs of today's professionals, you need a partner who can support you to keep pace. Especially when it comes to Microsoft Azure.

whether you're seeking application modernisation support, need help with cloud migration, or want a solution that encompasses data, analytics, and AI, Microsoft Azure can help. As a Microsoft Gold Partner with decades of experience, we can support your business to make the most of Azure, providing you with a tailored environment that flexes and scales on-demand depending on the needs of your business.

AZURE EXPERTISE TO HELP YOU THRIVE AND GROW YOUR BUSINESS

At Modality, we have been accredited partners to Microsoft since 2007, and early adopters of Azure technology solutions with more than a decade of expertise. We use our experience to help your business grow and collaborate with confidence while ensuring your solutions are as flexible as you need them to be.

Business requirements change all the time, and that means your technology applications will need to change too. If you're moving to the cloud, we can help you prepare for a secure, structured deployment that allows you to build, deploy and manage applications efficiently.

At Modality, we embed our cloud centre of excellence at the heart of our managed service offering, ensuring that we continuously learn, innovate, and optimise within the cloud to deliver continuous opportunities to our customers. Our many years of service management expertise and ITIL delivery models combined with the new world of cloud technologies, tools, and features have created a best-in-class managed service offering to support our customers now and in the future.

Our Azure specialists can help define your cloud strategy from start to finish, ensuring you take full advantage of Microsoft Cloud services to keep costs down and productivity up.

Whether you're new to Azure and want to ensure your applications are working at their best level or your established environment is in serious need of TLC, let us help. Using our five pillars of Azure Best Practice, we can help you verify current architectures and practices, identify and mitigate risks, and optimise costs and resource utilisation to improve efficiency.

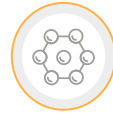

WHAT'S IN IT FOR ME?

Partnering with Modality comes with a whole host of benefits, with our teams consistently delivering the highest quality Azure solutions for our customers. But we know that credentials aren't always enough. You need to make sure your investment is worth it, and you'll get enough out of it to justify the spend.

Here's what's in it for you when you work with us:

Increased productivity across your workforce with solutions tailored to work for your business

Opportunity to learn from experienced and skilled Microsoft experts

Data-driven insights to help drive decision making and achieve results

Maximised ROI with solutions designed with your business goals at the heart

HOW WE CAN HELP?

Azure Cloud Journey

A structured approach to help you define your requirements and drive value on your Azure journey.

Azure Cost Optimisation

Full visibility of resource consumption to help you achieve maximum cost savings and improved ROI.

Azure SQL Specialists

Our experienced team ensures your database solution is fit for purpose and future-proof.

App Modernisation

A strategic, logical approach that uncovers opportunities for existing application migration to the cloud.

Secure Landing Zones

A compliant place to build new workloads or migrate existing workloads to the cloud.

Azure managed services

We manage, protect and govern to ensure continuous compliance and innovation.

WHY MODALITY?

When it comes to Microsoft Azure expertise and support in driving your cloud journey, you need an experienced partner.

Modality has been delivering Microsoft solutions to companies worldwide for over a decade. Our experienced team of Microsoft MVPs and 50+ Microsoft-certified technical experts are on hand to help you get ahead and seize the business opportunities enabled by Microsoft Azure solutions.

Wherever you are on your Microsoft Azure journey, we'd love to hear from you.
